

## Request for Refund

December 4, 2012

Customer # 105007

Patent # 7348961

This letter is a request for a refund for **only the surcharge** paid on 4/24/2012 for patent # 7348961 (Application # 9258601) in the amount of \$1640. I do want to keep the patent active.

For reason yet to be determined the revocation of the power of attorney for this account has been unprocessed by the USPTO since well before 4/24/12. I have made numerous attempts to consolidate my filings / patents under my customer # 105007 including a 3/29/12 change of address. Everyone I have dealt with at the USPTO has been very helpful and knowledgeable but unfortunately this problem has still not been resolved.

I was advised by a USPTO agent on 4/24/2012 to wait to ask for a refund for that surcharge until the consolidation of the records under my user # was complete as they saw it was in the works. That is why this request was delayed.

As an independent inventor with limited financial resources I humbly and respectfully request a refund of the surcharge amount because of the inability to access my patent information.

Thank you for this consideration.

Kind Regards,

Jonathan Shneidman
